J. C. HAYTER,  
EDITOR AND PUBLISHER.

Published Weekly and Semi-Weekly at  
\$1.50 per Year. Strictly in Advance.  
DALLAS, OREGON, JULY 25, 1907.

The way to build up Dallas is to patronize Dallas people.

The meanest of all men who edit,  
Are those who clip and don't give credit.

It is said by the fruit farmers in the Salem district that the Phenomenal berry will eventually supplant the Loganberry. The reason for this opinion is that the sharp acid of the Loganberry attacks the metal of the cans, making it impracticable to seal them in any but glass jars. While this will not impair their value for domestic use, it will put them entirely beyond the pale of commercial value, except as they can be sold while fresh. On the other hand, the Phenomenal berry has all the good points of the Loganberry and is also well adapted to canning, because of its sweetness.

In advocating the establishment of a free library in its home city, the Albany Democrat truthfully says that "the public library has become as much a necessity as streets and sewers and is a part of a prosperous city government." The people of Dallas, where a free library has been successfully maintained for three years, will heartily endorse the above sentiment. To Mrs. George T. Gerlinger and the good women who so ably assisted her with their time and talents in establishing the library and placing it on a solid foundation, our city owes a debt of gratitude it can never pay.

In a letter to the California Fruit Grower, H. C. Atwell, president of the Oregon State Horticultural Society, estimates the output of prunes this year at 22,000,000 pounds for Oregon and 5,000,000 pounds for Washington. This is a larger estimate than was made by growers earlier in the season. Prices range high in the Northwest, while in California the market is almost at a standstill. A large portion of California's old stock has been contracted for August and September shipment at prices ranging from 3c to 4 1/2c. The appearance of these old prunes alongside of the new crop from Oregon and Washington will not be such as will redound to the credit of California, but will serve as an excellent foil to set off the merits of our shipments.

## The Story of a Medicine.

Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, added by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, and dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical authorities, and within our borders, *Dr. J. C. Hayter*, who has examined them as the very best remedies for the diseases for which "Golden Medical Discovery" is adapted.

A full list of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also the cure of all catarrhal, bronchial and throat affections, accompanied with expectorated discharges, hoarseness, sore throat, lingering, or hanging-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in hand and never give it up until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

## Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.

WILLAMETTE VALLEY CO. RATES—Residence on meters, per Kilowatt 15c; Residence, flat per month, 16c. RATES FOR BUSINESS HOUSES—25c per drop and 5c per Kilowatt up to 10 drops; over 10 drops 20c per drop and 5c per Kilowatt up to 40 drops; over 40 drops 17c per drop and 5c per Kilowatt. A drop figures 16c or less. For power rates apply at the office. We are always ready to explain the "ins and outs" of the lighting proposition to you, call on us or phone to us, we are never too busy to talk business.
